Work Experience

Analyst Trainee | Marg ERP | August 25 - Present

- Worked with the R&D team to understand **client requirements** and enterprise ERP workflows.
 - Assisted in **integration and implementation** of healthcare partner platforms including JoyHealth, Healthians, Thyrocare, and Careplix.
 - Participated in **requirement gathering, workflow analysis, testing, and issue resolution** for ERP modules.
 - Gained exposure to **real-world business operations**, healthcare integrations, and enterprise software environments.
-

Projects

Telecom Churn Analysis - [Link](#)

- Analyzed telecom dataset and identified **~26-27% churn rate**, meaning 1 in 4 customers were lost, highlighting a major retention gap.
- Used SQL, Python (Pandas), Excel, and Power BI for data **cleaning, analysis, and visualization**.
- Discovered that >50% of churn occurs within the first **1-2 months**, with peak churn at month 1, emphasizing critical importance of early customer onboarding.
- Found that month-to-month contracts contributed to **~85-90% of total churn**, while long-term contracts **reduced churn to <10%**, proving contract type as the strongest retention.

HR Employee Attrition Analysis - [Link](#)

- Performed end-to-end EDA on IBM HR dataset (**1,470 employees, 35 features**) using Python (Pandas, Matplotlib, Seaborn) to identify key attrition drivers.
 - Discovered **~16% overall attrition rate** with Sales Representatives at 40%+ churn - flagged as highest-priority retention risk.
 - Found overtime employees are 3× more likely to leave; employees who left earned **~\$3,000/month less** — recommended compensation benchmarking.
 - Built an interactive **3-page Power BI dashboard** with DAX measures, slicers, and conditional formatting enabling drill-down by department, role, age, and income.
 - Surfaced actionable recommendations: restructured onboarding for **Year-1 employees**, overtime policy review, and targeted retention programs for **18-25 age** group.
-

Education

- Bachelor of Technology in Information Technology (BPIT) (21-25): 8.56
 - DLDAV Model School 12th (CBSE) (2021): 82%
 - DLDAV Model School 10th (CBSE) (2019): 86.6%
-

Skills

- Technical Skills: SQL, Python, Excel, Power BI, MySQL
 - Data Analytics: EDA, ETL, Data Cleaning, Data Visualization, Power Query, DAX
 - Libraries: Pandas, NumPy
 - Other: OOPS, Figma, JavaScript
-
